

PLY REGISTRATION

ELIGIBILITY CRITERIA

1 FEBRUARY 2022

An athlete will be eligible to **apply for a PLY designation** if:

1. In relation to a Paralympic Games, the athlete completed the formal process by which their accreditation was validated in the host country and was included on the sport entry list, pursuant to which they were deemed eligible to compete in that Paralympic Games;
2. The athlete was not subsequently determined to be ineligible to compete in that Paralympic Games due to being reclassified at that Paralympic Games as Not Eligible or designated CNC (as defined in the IPC Classification Code, as amended from time to time);
3. The athlete has confirmed that they accept the terms of the PLY Code of Conduct; and
4. The athlete is not currently serving a period of Ineligibility for an anti-doping rule violation.

For the avoidance of doubt, provided the criteria above are satisfied, the following athletes will be eligible to apply for a PLY designation:

- athletes who DNS or DSQ their race / competition; and
- athletes who have fully served a period of Ineligibility for an anti-doping rule violation, including where that period of Ineligibility was imposed for an anti-doping rule violation arising at that Paralympic Games.

An athlete will be eligible to **use a PLY designation** once their application has been accepted, provided that they are not currently serving a period of Ineligibility for an anti-doping rule violation. For the avoidance of doubt, an athlete serving a lifetime period of Ineligibility for an anti-doping rule violation will not be eligible to use a PLY designation.
