## Competition Format and Rules

競技形式および規則

As of THU 19 AUG 2021

### PARALYMPIC COMPETITION FORMAT

The triathlon competition at the Tokyo 2020 Paralympic Games features eight medal events, as follows:

<b>MEN</b>	PTWC	PTS4	PTS5	PTVI
<b>WOMEN</b>	PTWC	PTS2	PTS5	PTVI

The competition format is the same for the men's and women's events, with the following distances:

- Swim: 750m – one lap
- Bike: 20km – four laps of a 5km course
- Run: 5km – four laps of a 1.25km course

All events are continuous and have no breaks in between sessions of competition. In the men's and women's events the first athlete to complete the entire course is the winner.

The PTWC medal events (sitting class) allow entries from two classes: PTWC1 and PTWC2. Athletes in this event ride handcycles for the bike stage and racing wheelchairs for the run. One personal handler is permitted to assist the athlete during transitions. More information can be found in the World Triathlon competition rules.

In the PTS2, PTS4 and PTS5 events (standing classes) athletes may use assistive devices such as prosthetic legs. Bicycle modifications are permitted within the laws of the sport.

The PTVI medal event, which is for the visual impairment class, has three eligible sport classes: PTVI1, PTVI2 and PTVI3. Athletes in this event are assisted by guides of the same gender throughout the competition.

The PTWC and PTVI medal events have a competition format based on interval start times, which intend to remove unfairness caused by the degree of impairments that athletes of different sport classes have. Please refer to the World Triathlon competition rules for more details.

Drafting, when one rider is directly behind another benefiting from an area of reduced air pressure, is not allowed during the bike segment. Drafting for PTWC athletes is not allowed in the run segment either.

#### Competition rules

The para triathlon competition will be held in accordance with the editions of the following documents that are in force at the time of the Games:

- The World Triathlon Competition Rules (available at [www.triathlon.org/about/downloads/category/rules](http://www.triathlon.org/about/downloads/category/rules))
- The World Triathlon Para-triathlon Classification Rules and Regulations (available at [www.triathlon.org/about/downloads/category/rules](http://www.triathlon.org/about/downloads/category/rules))
- The IPC handbook (available at [www.paralympic.org/the-ipc/handbook](http://www.paralympic.org/the-ipc/handbook))

World Triathlon, working with the Tokyo 2020 competition management, will be responsible for the technical control and direction of the triathlon competition at the Tokyo 2020 Paralympic Games.

### CHANGES SINCE THE RIO 2016 PARALYMPIC GAMES

- Two additional medal events, bringing the total to eight from six, and an increase in participant numbers to 80 from 60 for Tokyo 2020.
- Event names and sport classes have changed from Rio 2016.
- Athletes in certain classes that do not have the designated medal event in Tokyo 2020 can attempt to class

up.

## DIFFERENCES FROM THE OLYMPIC GAMES

- There are four individual medal events for each gender in the Paralympic Games, compared to one for each gender and one for mixed relay in the Olympic Games.
- Some medal events allow for multiple eligible sport classes to compete at the Paralympic Games.
- Some medal events operate with an interval start system which gives the relevant compensation time to athletes in certain sport classes for fairer competition.
- There are trained water-exit assistants to help some athletes exit the water at the Paralympic Games.
- At the Paralympic Games, there is an area called pre-transition, where athletes can collect assistive devices upon exiting the water in order to reach the transition area more effectively. Athletes competing in the PTWC medal event are each allowed one personal handler in this area.
- Drafting is not allowed in the bike segment at the Paralympic Games. Drafting for PTWC athletes is not allowed in the run segment either.
- Some athletes are allowed to have personal handlers during transition to assist them with specific needs they may have.

Item: 1

**CANCELLATION SWIM FAMILIARIZATION OF 27 AUG 2021**

**Summary:**

The swim familiarization on 27 August is cancelled. The PTS5 & PTWC Athletes' Briefing and the Bike Check for the PTVI, PTS2W and PTS4M planned for Friday morning will take place as scheduled, and while the situation will be still monitored in the next 24 hours, the competition schedule for the weekend remains as planned.

**Details:**

Yesterday, one of the samples taken on Thursday 26 August, 4:30am came back with an unusual reading of the level of Enterococci being above the limit.

The results from a sample taken on Thursday 26th August, 13:00, show that the levels in all points inside the triple layer screen within the swim course are below the limits.

All the readings from the previous days, and the readings on the other two points inside the triple layer screen taken on Thursday 26 August, 4:30am within the triathlon swim course, were below the limits.

As a precautionary measure, the Technical Delegates and Medical Delegate have decided **the Swim Familiarization to remain cancelled originally planned for Friday, 6:30am, while we continue monitoring the situation. For the moment, all schedules** for Saturday and Sunday remain as planned. Final decisions will be taken in the daily situation meeting hours before each competition, and considering all the latest weather updates and water quality tests results.

Item: 2

**WATER QUALITY STATEMENT OF AUGUST 28, 2021**

**Summary:**

Tokyo 2020 and World Triathlon have been monitoring the body of water in Odaiba Marine Park, the venue for Paralympic Triathlon, for more than two years. For the Test Event, in August 2019, World Triathlon and Tokyo 2020 installed a single-layer underwater screen to prevent contaminated water entering the area where the triathlon events were to take place. It was then agreed that for Games time, a triple-layer screen was to be put in place, and this has been operating in the bay for the Olympic and Paralympic Games Tokyo 2020. The installation of triple-layer screens has proven to be working, according to all the measurements taken in the area since the triple-layer screens were installed.

**Details:**

Water quality tests are performed twice a day, with samples taken each day in 4 different locations of the body of water - three of them inside the barriers, within the triathlon field of play, one of them outside the barriers - and the results show that the underwater screen is working effectively. All the results are available for athletes and coaches to check at the Athlete's Lounge.

Tokyo 2020 is using Tecta-TDS portable laboratory for delivering fast and reliable microbiological water quality tests. This portable laboratory, already implemented in the 2019 World Triathlon Olympic Test Event in Tokyo, allows us to obtain results of E-Coli and Enterococci bacteria levels in the body of water tested in less than 12 hours. The latest available results within the triathlon field of play are within the World Triathlon acceptable limits.

Item: 3

WATER QUALITY STATEMENT OF AUGUST 29, 2021

**Summary:**

The competition schedule planned for Sunday 29 August 2021, will go ahead as scheduled.

**Details:**

Sunday 29 August 2021 - 2am

AIR TEMPERATURE: 29,1 °C

WATER TEMPERATURE: 30,5 °C

WTGB INDEX: the forecast for today indicates moderate to high heat stress level.

WATER QUALITY: all tests from yesterday, including the last one at 1pm, are within the limits.

With all this information, the Medical Delegate, the Technical Delegates and the Odaiba Bay Venue and Sport Team have decided to go ahead with the schedule for today as initially planned.

Water current generators are operating since 4pm yesterday 28 August till 5am today 29 August. Official water temperatures are taken one hour prior the competitions.

Water quality tests are performed twice a day at three different location inside the triple-layer screen and at one location outside of the screen. Initial results are received within 12 hours and final results within 24 hours from the Tecta system.

Issued by: World Triathlon Technical Delegate

Time: 4:44
