PARALYMPIC COMPETITION FORMAT

The wheelchair fencing event at the Paris 2024 Paralympic Games includes men's and women's individual events in all three disciplines, as well as team events for epee and foil. Athletes are divided into three sport classes, class 2, 3 or 4, under two categories of A or B, depending upon the degrees or types of impairments.

Fencing takes place on a piste measuring 4m by 1.5m. Preparations for each match begin with the fixing of the wheelchairs at a 110-degree angle relative to the centre line in the frames of the piste. The distance between the two fencers is determined by the athlete with the shorter arm reach, who decides whether the distance between competitors will be set at the length of their opponent's reach or their own.

Events

Individual

There are 12 individual events: six events each for men and women. For all individual events (epee, foil and sabre) in each category at Paris 2024, the competition format will begin with a direct elimination phase (table of 32) followed by direct elimination with repechage (table of 16 onwards).

Fencers are seeded into the direct elimination based on their current position in the IWAS wheelchair fencing world ranking. The effective duration of each bout is three minutes, with a maximum of five hits.

All direct elimination bouts continue until 15 hits have been registered in a maximum of nine minutes divided into three periods of three minutes for epee, with a 60-second pause between any two periods. For foil and sabre, the first period ends either at the expiry of the three minutes or when one of the fencers has scored eight hits.

Winners of each bout in the table of 32 progress to the table of 16 while the losers are eliminated. The winners of each bout in the table of 16 progress to the next step of direct elimination while the loser progresses to the repechage bracket. The winner of the direct elimination bouts progress to the gold-medal bout while the loser of repechage bracket will progress to the bronze-medal bout.

Team events

There are four team events: epee and foil for men and women. The team event is played in a direct elimination phase.

Teams are seeded based on their current position in the IWAS Wheelchair Fencing world ranking. The first four teams are placed in the direct elimination table according to the current IWAS Wheelchair Fencing world team ranking. The remaining ranked teams will be placed in the table by drawing of lots in pairs.

Teams comprise of three fencers and one substitute fencer, where available. A team may nominate a substitute fencer providing that substitute fencer is also entered into any of the individual events.

Each of the three fencers in a team will fence all the fencers in the other team for a total of nine bouts. Each bout lasts until a multiple of five points has been scored for the total score or after three minutes are reached, whichever happens first. The score is cumulative as each subsequent bout builds on the score of the previous bout, but the designated time is only given for each bout in a non-cumulative way. Each team match is finished either after 45 points are scored or after the ninth bout. The winning teams from the table of 16 proceed to the quarterfinals. The losing teams are ranked ninth to 12th (based on their IWAS Wheelchair Fencing world team ranking).

The winners of the quarterfinals progress to the semifinals, while the losing teams are eliminated and ranked fifth to eighth based on their IWAS Wheelchair Fencing world team ranking.

The winners of each semifinal will progress to the gold-medal bout while the losers of semifinals will contest the bronze-medal bout.

SPORT RULES AND PROCEDURES

Tiebreak rules

In the individual events, if the scores are tied after the third period, there will be a further one minute of fencing time with one fencer randomly chosen and given priority. The winner will be the first fencer to score a valid hit. If no hits are scored, the winner will be the fencer with priority.

Competition Format and Rules

Format et règlement des compétitions

As of FRI 23 AUG 2024

In the team events, if the scores are tied after the ninth bout, there will be a further one minute of fencing time with one fencer randomly chosen and given priority. The winner will be the first fencer to score a valid hit. If no hits are scored, the winner will be the fencer with priority.

Competition rules

The wheelchair fencing competition will be held in accordance with the editions of the following documents that are in force at the time of the Games:

- The IWAS Wheelchair Fencing Rules for Competition (available at <https://wheelchair-fencing.org/about/rules-and-documents/>)
- The IPC Handbook (www.paralympic.org/the-ipc/handbook)

The World Abilitysport federation, working with Paris 2024 competition management, will be responsible for the technical control and direction of the wheelchair fencing competition at the Paris 2024 Paralympic Games.

CHANGES SINCE THE TOKYO 2020 PARALYMPIC GAMES

The competition format differs from the Tokyo 2020 Paralympic Games in the following ways:

- The competition format has changed from a pool phase followed by direct elimination at Tokyo 2020 to direct elimination with repechage in individual events, and direct elimination for team events at Paris 2024.
- All fencers on a team (including the substitute) receive a medal.
- Substitutes can be used for medical or tactical reasons according to the IWAS Wheelchair Fencing rules.
- In foil direct elimination bouts, the first period ends either at the expiry of the three minutes or when one of the fencers has scored eight hits.

DIFFERENCES FROM THE OLYMPIC GAMES

The competition format differs from that of Olympic Games fencing in the following ways:

- The competition format consists of direct elimination with repechage rather than direct elimination at the Olympic Games.
- Breaks in foil direct elimination bouts take place at either the expiry of the first three minutes, or when one of the fencers has scored eight hits.

Term	Definition
Allez	French word for “go”. In fencing it is the word the referee uses to start a bout.
Analysis	The process of describing actions occurring in a fight, usually in the phase preceding a hit.
Annulment of hit	A valid hit, disallowed because of an infringement of the rules or because of a technical fault.
Arret (stop hit)	Counter offensive action to the opponent's attack.
Assault	A friendly combat between two fencers is called an assault; if the score is kept (as for a competition), it is a bout.
Assistant referee (corner judge)	The assistant referee assists the referee in determining the validity of a hit, and with the correct use of the rear hand/arm of the fencer and masks at foil and also the forbidden use of legs e.g. standing.
Attack	An initial offensive action made by extending the sword arm and continuously threatening the opponent's target area.
Blade	The main component of a sword on which the hilt is mounted.
Bout	<p>In pools, a bout lasts for three minutes or the first person to achieve five hits on the opponent. In the direct elimination phase, one bout consists of up to three periods for individual competition or in the team event it is one relay of the series of fights in a match.</p> <p>An individual direct elimination bout continues until 15 hits are registered in a maximum of nine minutes divided into three periods of three minutes, with one minute's pause between any two periods.</p> <p>In a team event, with nine bouts, each bout, known as a “relay”, can last for three minutes or five hits (i.e. competitors change at five, 10, 15, etc. hits), while hits are accumulated to reach a number that can be divided by five. This means a fencer can make up for his/her teammates' inefficiency during his/her three minutes and score up to the number of hits that correspond to five times the number of the bouts within the match.</p>
Breeches	Fencer's trousers.
Brutality	Actions performed with an unacceptable level of force or violence, which causes discomfort to the opponent.
Calculated index	The calculated index is the ratio of the total number of wins to the total number of matches and the relationship between “hits scored” and “hits received” during the pool stage.

As of 23 AUG 2024

Term	Definition
Direct elimination	Competition format in which the winner of a fight advances to the next phase and the loser is eliminated.
Disciplinary code	By taking part in a fencing competition, fencers give their word of honour to comply with the rules of competition and with the decision of judges, and to show respect for the president and the members of the jury.
Double	A compound attack, in order to avoid the opponent's circular parry.
Double action	Both fencers whilst hitting at exactly the same time start their actions at different times
Double hit	In epee, when both fencers register a hit on each other simultaneously, the difference of time between the two hits being less than 1/25 of a second.
Draw	This is a random draw carried out publicly by the directoire technique in order to determine the order of fencers and/or bouts during a competition. The draw is organised during the Delegation Leaders' meeting.
Duration of bout	Actual fencing time allowed during a bout. A stop clock starts at the beginning of a bout, stops each time the referee halts the fencers, and starts again when the bout is restarted.
En garde	French for "on guard" and is said by the referee before the start of the bout to signify to the fencers that they should get into positions.
Epee	A fencing discipline where the body above a horizontal line drawn around the hips of a competitor is the target area and only ground hits (to the piste) are invalid. Hits are scored with the point of the weapon only. (See "weapons")
Foil	As in epee, hits can only be scored with the point, not with cuts. The target area is the torso (front and back, excluding the head, arms and legs).
Frame	A wheelchair fencing frame is used to hold the fencers' wheelchairs in place. Both wheelchairs are firmly fixed to the frame, the distance between the fencers is set at the start of every bout. For foil and sabre, one fencer will bend the fencing arm with the forearm vertical, the upper arm horizontal and the elbow pointing to the other fencer. The other fencer, with a straight arm, shall touch the inner edge of the opponent's forearm with the point of the foil/sabre. For epee, one fencer will bend the fencing arm with the forearm vertical, the upper arm horizontal and the elbow pointing to the other fencer. The other fencer, with a straight arm, shall touch the outer edge of the opponent's forearm with the point of the epee. The fencer with the shorter arm may choose a distance that lies in between his/her and his/her opponent's distance.
Glove	Made of leather or similar material which must be worn on the sword hand and which must have a gauntlet long enough to cover the sword arm sleeve mid-way between the hand and the elbow.
Grip (of weapon)	The handle part of the hilt.

Sport Terminology

Terminologie du sport

As of 23 AUG 2024

Term	Definition
Guard (of weapon)	The part of the hilt to protect the sword hand.
Hit(s)	A valid touch; the tip of the sword; an attack made with the point (i.e. a thrust).
Jacket	A jacket made of durable material without any fastenings on the sword-arm side, which covers the valid target area and has a double coating of material on the front and on the sword arm.
Mask	Wire mesh covering worn on the head to protect the face, sides of the head and neck.
Match	This is the traditional name for a series of nine bouts between two teams in the team event.
Piste	This is the surface on which fencers compete. The size is usually a minimum of four meters long with a minimum width of 1.5 meters. Usually made of aluminum segments.
Plastron	Half-jacket with no underarm seam, worn for extra protection on the sword arm under the fencing jacket; also a padded over-jacket worn by a fencing coach during individual training.
Point	See "hit(s)"
Pret	French for "ready". One of the three words that the referee says before the start of the bout. The sequence of commands is as follows: engage, pret, allez.
Quarter	An elimination table consisting of four quarters with a specific seeding (first v last, second v last but one, and so on) in order to make it probable that the best fencers/teams do not fence each other before the final.
Referees	Qualified judges for bouts and matches. IWAS is currently attempting to establish a pool of qualified referees for world championships and Paralympic Games in order to ensure their quality. The referees have responsibilities in the following areas: Control duties Management duties Disciplinary duties Judging duties
Referee delegate	A representative of the refereeing commission appointed by the executive committee (EC) of the IWAS Wheelchair Fencing (IWF). The referee delegate proposes a list of potential referees to the IWAF EC.
Relay number	A match in a team event consists of nine bouts in a set sequence. The relay number is the number of the current bout within a match.

Sport Terminology

Terminologie du sport

As of 23 AUG 2024

Term	Definition
Remise	The renewal of an action after being parried by replacing the point on the target in the same line as the original action. A redoublement is the renewal of an action after being parried by replacing the point on the target in a different line compared to the original action.
Renewed actions	The continuation of the original offensive action following the opponent's parry.
Reprise	The renewal of an action made with a lunge, after having returned to guard (forward or backward).
Riposte	An offensive action following a successful parry of an attack.
Sabre	The sabre is the only weapon where hits can be scored with the point and with the edge of the blade. The target area in sabre is everything above a horizontal line drawn around the torso at hip level (i.e. front and back of head, arms, torso). (See "weapons")
Score sheets	There are several different kinds of score sheets. In all competitions there are score sheets for individual bouts, as well as for a phase or quadrant. In team events, one score sheet is used to record the entire sequence of bouts within a match. The information required by the federation on these different forms varies.
Scoring device or scoring machine	A device that indicates hits using red and green lamps, and, only in foil, white lights for hits off target; usually a stop watch and a scoreboard display are linked to the machine.
Simultaneous action	Both fencers commence an offensive action at exactly the same time/moment.
Target (epee only)	The whole of the body above a horizontal line drawn around the torso at hip level including the back, hands, feet, and head.
Target (foil only)	The trunk of the body, excluding the head and limbs. The upper limit is the collar up to 6cm above the collarbones; at the sides the limits are the seams of the sleeves, which should cross the head of the humerus. The lower limit follows a horizontal line across the back joining the tops of the hip bones, then following in straight lines to the junction of the lines of the groin. It also includes the lower part of the bib on the mask.
Target (sabre only)	Any part of the body above a horizontal line drawn around the torso at hip level of the fencer when in the "on guard" position.
Temps d'escrime (fencing time)	The time required to perform one simple fencing action.
Valid hit	A hit that is made correctly on target.
Video referee	The video referee assists the referee with the review of video footage of problematic fencer actions.
