

Data Protection Consent Form for Athletes

regarding the transfer of governance of Para dance
sport to World Abilitysport

November 2023

As of 1 January 2024, the International Paralympic Committee, Adenauerallee 212-214, 53113 Bonn, Germany (“IPC”, “we” or “us”) will transfer the governance of Para dance sport to World Abilitysport, Aylesbury College, Oxford Road, Aylesbury, Buckinghamshire, HP21 8PD, United Kingdom (“World Abilitysport”).

This Data Protection Consent Form (“Form”) documents your consent to the transfer of certain data governing your participation in Para dance sport competitions (“Competitions”).

The Form requires your consent as set out below in order for you to remain eligible to compete in Competitions going forward. Subject to any alternative arrangements you make with World Abilitysport, you will not be eligible to continue competing in Para dance sport until you have signed and returned this Form.

Consent to Transfer of Non-Public Personal and Health Data

To facilitate your continued participation in Competitions, your consent is required in order to transfer to World Abilitysport the non-public personal and health data previously collected by the IPC.

Without your explicit consent the IPC will not grant World Abilitysport any access to your non-public personal and health data, so no transfer of non-public personal and health data to World Abilitysport will take place. This will mean that World Abilitysport is unable to facilitate your ongoing participation in Competitions, and you will be ineligible to compete in Para dance sport, subject to any alternative arrangements you make directly with World Abilitysport.

For further information on how IPC manages your personal and health data, please see our [Data Protection Information for Athletes](#) regarding the transfer of governance of Para dance sport to World Abilitysport according to Article 13 (3) of the European Union General Data Protection Regulation (“GDPR”).

Consent to Simultaneous Transfer of Public Personal and Health Data

In addition, if providing your consent prior to 31 December 2023, you also consent to the transfer of your public personal and health data previously controlled by the IPC at the same time that your non-public personal and health data is transferred to World Abilitysport.

Having read the above, I freely agree that the IPC may transfer my non-public personal¹ and health² data related to Para dance sport to World Abilitysport for the purpose of the governance change and in order to facilitate my participation in Para dance sport competitions in the future.

In addition, if providing my consent prior to 31 December 2023, I also consent to the transfer of my public personal and health data³ at the same time that my non-public personal and health data is transferred to World Abilitysport.

I can revoke my consent in whole or in part at any time. I can declare the revocation by contacting privacy@paralympic.org. Data processing carried out based on this consent prior to my revocation will continue to be lawful.

If I do not give this declaration of consent, a transfer of my non-public personal and health data will not take place and I will be ineligible to compete in the Para dance sport, subject to any alternative arrangements I make directly with World Abilitysport.

Place and Date: _____

Athlete Name: _____

Signature: _____

Where the data subject is under the age of majority or otherwise lacks legal capacity under applicable national legislation and only one parent or legal guardian signs, the parent/guardian shall declare that he/she has sole custody or is authorized to make this declaration with binding effect also on behalf of any other legal representatives.

Name of Parent/Legal Guardian: _____

Signature of Parent/Legal Guardian: _____

¹ All non-health personal data required to facilitate ongoing participation in Competitions - passport data, email address, date of birth, latest photo, licensing history.

² All health data required to facilitate ongoing participation in Competitions - full classification profile (medical diagnoses, dates of classification, etc.), classification files (electronic and/or paper-based/scanned classification forms, medical diagnostic forms and supporting documents, medical review requests, protest forms).

³ SDMS Athlete ID, preferred given and family name(s), year of birth, sport gender category, representing National Paralympic Committee, sport classes and sport class statuses (as shown on public classification master lists and associated with results and/or rankings), performances in Competitions together with details (results data, competition, dates, events, event category/classes, etc.), historical rankings, histories of any changes of the above data.
